Dear Bert:

I appreciate the opportunity you gave Don Wortman, Jim McDonald, [redacted] to present CIA's views on GSA support services. Enclosed is the final of the draft paper that they left with you at the meeting. I hope these contributions to the NAPA study of GSA are helpful to you.

The intent of the paper is to bring the impact of the support provided by GSA to this Agency into sharp focus. The identification of areas where GSA support falls short of our requirements is intended to serve as the foundation for constructive change.

We look forward to providing additional data or assistance as requested.

Sincerely,

/s/ Frank C. Carlucci
